- Questions & Answer
- Visibility, Visibility & Visibility

WHO SHOULD ATTEND?

This course will include both classroom and in the field practical examples. This is a very intense course where Anthony is sharing with you many things that are the trade secrets of Anthony and M&M. Anyone in the sporting clays community is well aware of Anthony's ability to set targets and run the most successful shooting events in the United States. After taking this course you will know **EVERYTHING** there is to know about reading targets, but this course is **NOT** about reading targets it is much more involved than that. The course is about knowing all of the ins-and-outs of target setting. All participants are welcome and anyone that is serious about the game will learn from this experience. This course is a must for anyone involved in target setting hoping to take his or her education to much higher level. What you will learn in this course is invaluable and has taken Anthony over 20 years to learn as both a target setter and shooter. It is impossible to put a value on this experience, as Anthony is the only person in the world that has his depth of knowledge both as a world-class shooter and a target setter.
